

Fig. 1A

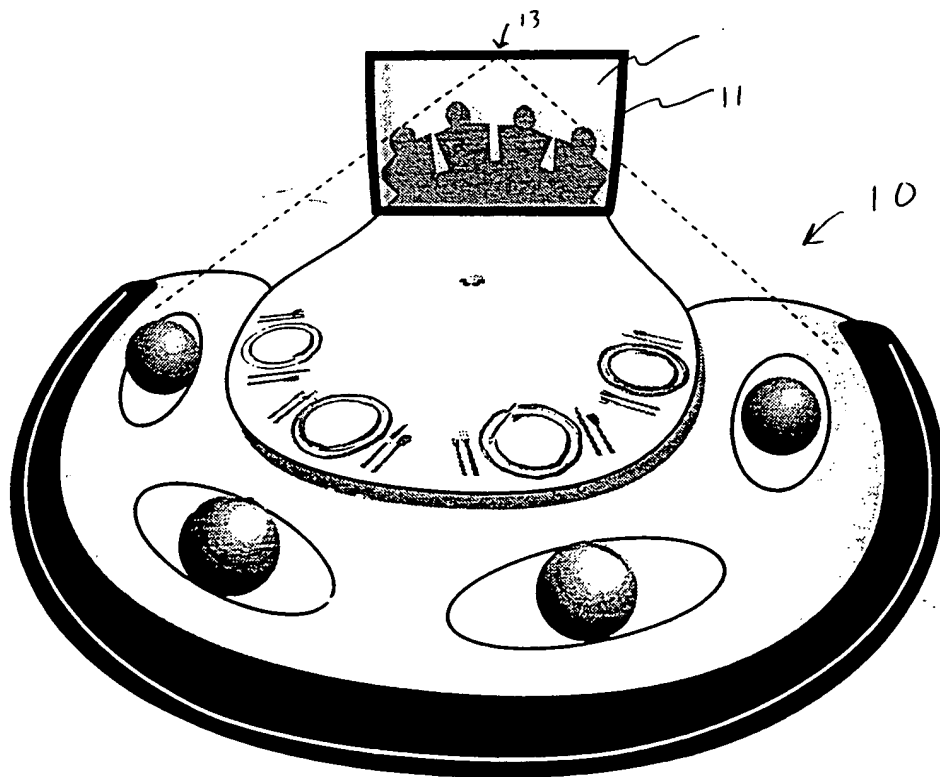

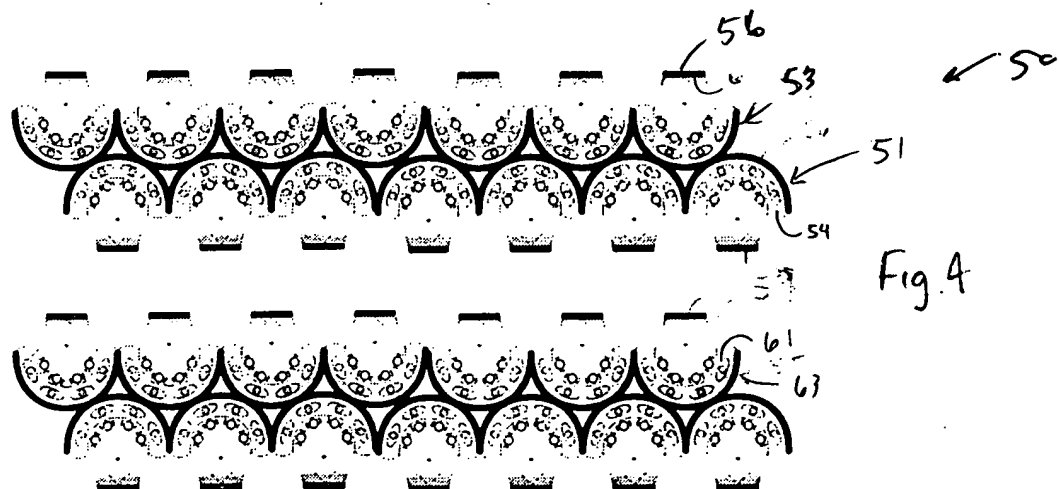

Fig. 1B

Fig. 3 is a perspective view of the front of the helmet. It shows the front plate (45) which has four circular openings (47) arranged in a 2x2 grid. The face shield assembly (40) is shown in a retracted position, revealing the front plate. The helmet is mounted on a chin strap (48) which is attached to the front plate via hinges (49). The top of the helmet is shown with a crown (50) and a rear plate (51) which is secured by a strap (52) passing over the crown and under the rear plate, with buckles (53) at the ends.
